### CAREER OBJECTIVE:

As a MERN Stack Developer with strong skills in MongoDB, Express.js, React, and Node.js, I am eager to apply my expertise in web development and design. I aim to contribute to impactful projects, focusing on performance and user experience while continuously growing my skills. In the next five years, I aspire to become a Full Stack Developer, where I can manage both frontend and backend development and lead complex projects.

### TECHNICAL SKILLS:

**Front End :** HTML5, CSS3, Javascript, React JS, Tailwind Css, ES6

**Back End :** Mongo DB, Express JS, Node Js, Cors, JWT

**Tools :** Figma, Canva, Netlify, Vercel, Git, Github, Devtool, Firebase etc.

### PROJECTS:

#### 1. Real Estate Website

[Live Link](#) | [Client](#) | [Server](#)

**TYPE:** FULL STACK PROJECT

**Overview:** A platform where agents can add properties and users can make offers, purchase properties, and manage reviews.

##### key Features:

- **User:** Add properties to a wishlist, make offers, pay, and manage bought properties and reviews.
- **Agent:** Add, edit, and delete properties; accept/reject offers; view sold properties and earnings.
- **Admin:** Approve/manage properties, reviews, users, and advertise up to six properties on the home page.
- **Tech Stack:** React, Tailwind CSS, Firebase, Node.js, Express.js, MongoDB, JWT

#### 2. Pet Haven BD

[Live Link](#) | [Client](#) | [Server](#)

**TYPE:** FULL STACK PROJECT

**Overview:** A pet adoption platform allowing users to browse pets, submit adoption requests, and manage profiles.

##### key Features:

- **User:** Users can save favorite pets and manage adoption history.
- **Features:** Pet listings with detailed profiles and health information.
- **Tech Stack:** React, Tailwind CSS, Firebase, Node.js, Express.js, MongoDB, JWT
