925, Dakkhingaon, Katherpool, Bashabo, Sabujbagh Dhaka-1214 | **Date of birth:** 5th July 1998

Objective

Highly motivated Software Engineer with extensive experience in designing, developing, and maintaining backend systems. Proven ability to work effectively with SAP, Java, Spring Boot, Oracle PL/SQL, PHP, and Drupal. Eager to leverage my skills in a challenging role that promotes continuous learning and growth.

Technical Skills

- SAP ABAP | Java | JavaScript | Python | PHP | TypeScript | Prolog
- Spring and Spring Boot | Angular | Hibernate | JPA | Django (Basic) | Laravel | Drupal | Vue.js
- SAP S/4 HANA | Oracle | PL/SQL | MySQL | MS SQL | NoSQL (Basic) | open SQL | Redis
- Docker | Kubernetes | OpenShift | AWS | Apache Kafka | Apache Web Server | SAP Cloud
- AutoCAD | Cisco Packet Tracer | MS Office Products
- Linux | Windows

Experiences

PT Midas Daya Teknologi (Jakarta, Indonesia - Remote)

Backend Developer (Technical Consultant) / 01 August 2023 — Present

- Working on Core Banking System and Mobile Banking System development for the client.
- Responsible for building new API coverage (maintenance, inquiry, and financial) using existing APIs by writing business logic in PLSQL and creating containerized restful APIs using the Spring Boot Framework.
- Plugging authentication components into the App Framework, deploying API images on the Red Hat® OpenShift® Container Platform, and report development using Oracle BI Publisher.
- Improving customer experience, reducing costs, enabling faster time to market, future adoption, Open banking APIs, and promoting agility through cloud-native tech.
- Code review, bug fixing, and mentoring junior developers.

Ahsanullah University of Science and Technology (Dhaka, Bangladesh - Onsite)

Software Engineer / 01 February 2023 — 31 July 2023

- Developing different modules for the University Management System and system for Dhaka Ahsania Mission.
- Coordinate the junior programmers and analyze the code written by them.
- Update and expand the existing systems.
- Writing well-designed, efficient, scalable Java code, SQL, and PL/SQL.
- Ensure the best possible performance, quality, and responsiveness of the applications.

BJIT LIMITED (Dhaka Office, Bangladesh - Hybrid)

Software Engineer / *01 October 2021 — 31 January 2023*

- Work at SAP ABAP Development like ALV, Smart forms, Adobe forms, Module Pool Programming, Enhancement, BDC.
- SAP UI5 Development, SAP Fiori APPS, Standard Fiori APPS Installation.
- Create SAP RESTful API (ODATA Services)
- SAP Mobile Platform APPS.
- SAP Full Stack Developer.
- Developed enterprise solutions using Java Spring and Spring Boot.
