Carrer Objective

Motivated and active computer science student with strong programming and analytical skills. A skilled web developer with experience in both front-end and back-end development, ready to collaborate with teams in a fast-paced workplace.

Education

Bachelor of Science in Computer Science and Engineering (BSc CSE)

North South University, Dhaka

Present

CGPA: 3.11

Higher Secondary School Certificate (HSC)

Barishal Govt. Model School & College

Barishal

GPA: 3.91

Secondary School Certificate (SSC)

Taslima Memorial Academy

Patharghata, Barguna

GPA: 4.41

Projects

Portfolio Website

Developed a personal portfolio website using React.js, Tailwind CSS

[Link](#)

Glide-Room

Developed a web application featuring one-to-one audio, video, and screen-sharing capabilities using React.js, Tailwind CSS, Express.js, and Socket.io.

[Live](#) | [Github](#)

Glide-Room [PC Application]

Developed a web app for one-on-one audio, video, and screen sharing with remote control, using Electron.js, Tailwind CSS, and Socket.io.

[Github](#)

TechSolutions

Working on a community website for technicians and clients to troubleshoot issues through remote access. Utilized React.js, Tailwind CSS, JavaScript, and Firebase for user authentication and real-time database storage.

[Link](#) | [Github](#)

Jatra

Developed the frontend of a web application that displays real-time bus ticket results, including routes, operator names, and pricing, by fetching data from an API. Built using Next.js, Tailwind CSS, and GSAP.

[Live](#) | [Github](#)

Bus

Designed and implemented a RESTful API using Express.js, Puppeteer.js for web scraping to obtain real-time bus ticket data. This API efficiently collects and processes information from various sources, ensuring accurate and up-to-date ticket availability, pricing, and related details for users.
