EXPERIENCE

01/18 – PRESENT

FRONTEND DEVELOPER, GETWEB

- **Building website structure and layout:** Using HTML the cornerstone of web development.
- **Styling elements:** With CSS, they add visual flair and define the look and feel of the website, ensuring fonts, colors, and animations are consistent and user-friendly.
- **Adding interactivity:** JavaScript brings websites to life, allowing users to click, scroll, and interact with elements.
- **Building reusable components:** Modern frontend development leverages frameworks like React.js
- **Conversions:** Figma, XD, PSD to Pixel-perfect conversions.

05/18 – 12/22

Mentor, FRONT-END DEVELOPER, DIGITALIT-INST

- **Reviewing code:** Analyze mentees' code, identify areas for improvement, and suggest best practices for writing clean, efficient, and maintainable code.
- **Setting learning goals:** Collaborate with mentees to define their desired skillset and establish achievable learning objectives.
- **Encouraging growth:** Motivate mentees to overcome challenges, celebrate their achievements, and foster a positive learning environment.
- **Participating in mentoring programs:** Contribute to organized mentoring initiatives within your company, community, or online platforms.
