

# Mahamudul Hasan Seber

## Web Developer

### ABOUT ME

I am a passionate Frontend and WordPress Developer with a strong foundation in modern web technologies. I specialize in building responsive, user-friendly websites using React, Tailwind CSS, and WordPress. With hands-on experience in creating dynamic interfaces and managing full website lifecycles, I enjoy turning ideas into interactive, functional, and elegant digital experiences. I am always eager to learn new tools and committed to delivering high-quality solutions.

### PROJECTS

- **TechAid** Frontend | Backend
  - A modern web application that offers fast and affordable repair services for various electronics like TVs, PCs, and ACs. Built with React, Node.js, and MongoDB to ensure smooth performance and real-time service handling.
- **Movies World** Frontend | Backend
  - An interactive movie browsing platform built with React and TMDB API, allowing users to explore movies by category with detailed views, posters, and cast information.
- **Gadget Heaven** Frontend
  - A sleek and modern e-commerce-style platform built with React for displaying the latest gadgets like smartphones, headphones, and accessories, offering a clean UI and responsive experience for tech lovers.
