SUMMARY

Innovative Full-Stack Developer with deep expertise in Next.js, React, Redux, and the MERN stack. I build robust, modern applications using Node.js, Express, MongoDB, Prisma, and PostgreSQL, always with a keen eye on cutting-edge front-end architecture and efficient state management.

PROFESSIONAL SKILLS

Frontend	: TypeScript	Next Js	Tailwind CSS	Redux	Axios	Framer Motion
Backend	: Node Js	Express Js	Mongoose	Prisma	Jwt	Php
Database	: MongoDB	PostgreSQL	MySQL			
Tools	: VsCode	Postman	Cloudinary	Figma	Vercel	

PROFESSIONAL EXPERIENCE

Junior Web Developer at Mangrove Software & IT

Aug 2024 - Present

- Worked in a team environment, contributing to project development, fixing bugs, and implementing new features to meet challenges.
- Developed responsive UI using React and Next.js with efficient state management via Redux.
- Collaborated with backend developers to consume APIs and also contributed to backend development using Node.js, MongoDB, and Mongoose for efficient database management.

PROJECTS

CineVerse: Movie Streaming Platform

[Live Site](#) [Frontend Code](#) [Backend Code](#)

Features:

- Built a movie streaming platform with secure login, profile management, and personalized watchlists.
- Enabled content discovery via search, filters, and sections like Trending, Top-Rated, and New Releases.
- Implemented a secure movie purchasing system with coupon/discount features, integrated seamlessly with SSL Commerz for smooth and reliable payment processing.

Usedify – Buy & Sell Pre-loved Products

[Live Site](#) [Frontend Code](#) [Backend Code](#)

Features:

- Developed a full-stack platform to buy and sell pre-owned products with secure payment system.
- Implemented responsive UI, category-based search and filters, along with an admin dashboard for efficient product and user management.

EDUCATION

Computer Science and Engineering

Sep 2019 - Sep 2023

Rajshahi Polytechnic Institute
