PROJECTS

MatrimonySite(MERN Stack): A matchmaking platform that connects potential brides and grooms.

[Live Link](#) | [Frontend](#) | [Backend](#)

Technologies: React.js, JavaScript, MongoDB, Express.js, Firebase, Tailwind CSS, Flowbite

- Separate Dashboard: Admin, Users roles with specific access controls.
- User can create, update, delete their profile and request to get contact, and Admins can approve contact requests and manage users.
- Implemented JWT for secure data transmission.

Chill Gamer(MERN Stack): A game review platform where users can explore, post, and rate game reviews.

[Live Link](#) | [Frontend](#) | [Backend](#)

Technologies: Next.js, JavaScript, MongoDB, Express.js, Firebase, Tailwind CSS, Flowbite

- Dashboard: Admin, Users roles with specific access controls
- User can create, update, delete their surveys and request to post and get reviews and favlist.
- Integrated Firebase Real-time Database to display instant review results.

EduLab (MERN Stack): A library management system for efficient book tracking and user management.

[Live Link](#) | [Frontend](#) | [Backend](#)

Technologies: React.js, JavaScript, MongoDB, Express.js, Firebase, Tailwind CSS, DaisyUI

- Users can borrow and return books, and view their borrowed history.
- Admins can add, update, and delete books, and manage user activity.
- Integrated Firebase Real-time Database to track borrowing status instantly and update book count.
