

## Hossain Mohammad Hanif

Hello! I'm, a passionate student at the University of Information Technology and Sciences studying Information Technology. I've explored various aspects of technology and computer science during my academic journey. My main focus is programming, where I've developed skills in HTML, CSS, JavaScript, Java, SQL, and database management. These tools have helped me create diverse projects and grow as a proficient developer.

## EXTRA CURRICULUM

**Codeforces**, | Remote 2023

[https://codeforces.com/profile/Hossain\\_Mohammad\\_Hanif](https://codeforces.com/profile/Hossain_Mohammad_Hanif)

**beecrowd**, | Remote 2022

<https://www.beecrowd.com.br/judge/en/profile/708292>

**codechef**, | Remote 2023

<https://www.codechef.com/users/hanif89>

## SKILL

**Programming:** C/C++, Java, Object-oriented programming language in java SQL (database) PHP, Git, LaTeX, HTML, CSS, JavaScript., Assembly language, Client Server Programming(CSP), Python (TensorFlow, Keras, Pandas, Scikit-learn, etc.)

**Technology:** Database Management System, Digital Logic Design, Web Technology, Mechanical Engineering Drawing, Network

**Management System**

Software Linux, Tensorflow, Docker, OpenCV, Software Development, Computer Data and Network Security(CDNS)

Certifications 10minuteschool - email writing, CV (2023), | Great Learning - Self-learning in ML and Ai - (2023) etc

## EDUCATION

### BSC IN ENGINEERING

**2020 - 2024**

BSC IN ENGINEERING - Information Technology(IT),  
University of Information Technology and Sciences  
(UITS) | Dhaka, Bangladesh

**H.S.C , Science Group, Cantonment  
Public School and College, Khulna |  
Jahanabad Cantonment, Khulna**

**2016- 2018**

Achievements: A two-year Program in Science group at Cantonment Public School and College, Khulna. Involved in diverse academic and extracurricular activities. My favorite subjects include Biology and Physic.

## PROJECTS

### Personal Portfolio JAN 2022 - DEC 2022

#### **Personal Project UITs**

- Developed a environment utilizing and implemented a website of personal information.
- Popular repositories:<http://hossain-mohammad-hanif.42web.io>
- Designed and implemented Html, Css, JavaScript

### Java Programing Jan 2022 - DEC 2022

#### **MCQ Question Desktop App UITs**

- Developed a environment utilizing and implemented a Desktop App in Netbeans of MCQ Question with result.
- Popular repositories:<https://github.com/hanif89/MCQ-question-in-java-programing->
- Designed and implemented Java, OOPL(Object Oriented Programming Language),Netbeans Software

### Java Programing Jan 2022 - DEC 2022

#### **Client Server Program UITs**

- Developed a environment utilizing and implemented a Chat system between client and Server
- Popular repositories:<https://github.com/hanif89/client-server-program-in-java>
- Designed and implemented Java, OOPL(Object Oriented Programming Language),Netbeans Software

### Machine Learning Jan 2023 - April 2023

#### **Credit Card Fraud Detection**

- Developed a environment utilizing and implemented a Machine Learning project on Credit Card Fraud Detection
- Popular repositories:<https://github.com/hanif89/Credit-card-faured-detection-using-ML>
- Designed and implemented in Google Colab
