PROFILE

Frontend Developer specializing in React.js with a strong foundation in JavaScript, HTML, CSS, and REST APIs. Built multiple responsive projects using modern front-end tools like Redux, Bootstrap, Tailwind CSS. Passionate about writing clean, efficient code and continuously learning new technologies.

PROFESSIONAL EXPERIENCE

Jr. Software Engineer

Nawab Host Z

July 2022 - April 2023

Achievements

- Redesigned the Nawab Host website by converting UI designs from Figma into responsive HTML templates and integrating them into a Laravel framework.
- Collaborated closely with the development team to ensure pixel-perfect conversion of Figma designs into functional, well-structured HTML.
- Contributed to the development of custom WordPress widgets, enhancing the overall flexibility and usability of the CMS.
- · Gained hands-on experience with front-end development, Laravel integration, and WordPress CMS.

Jr. Software Developer

Proyas Manobik Unnayan Society 2

May 2021 - July 2022

Achievements

- Assisted developers in the development of web applications using core technologies including HTML, CSS, Bootstrap, PHP and MySQL.
- Actively contributed to troubleshooting, debugging, and maintaining the existing codebase to ensure optimal functionality and performance.
- Supported the implementation and customization of WordPress CMS for dynamic content management across various organizational platforms.
- Strengthened foundational knowledge in full-stack development through hands-on project involvement and collaborative teamwork.
