**Backend:** RESTful APIs, Express.js, Node.js **Database:** MongoDB, MySQL **Version Control:** Git, GitHub **Other:**

Web Performance Optimization, Debugging  Testing, Responsive Web Design

## Experience

**Frontend Developer (Internship)  Codex Devware, Remote**                                    04/2025 – Present

Codex Devware is a software development company specializing in delivering custom web and mobile solutions for businesses. The company focuses on building user-friendly digital products, combining modern design with clean, scalable code.

- Assisted in developing and maintaining responsive web interfaces using HTML, CSS, JavaScript, and React.
- Collaborated with senior developers to implement UI designs and enhance user experience.
- Worked with REST APIs to integrate backend data into frontend components.
- Participated in code reviews, debugging, and daily stand-up meetings.
- Gained hands-on experience with version control (Git) and agile development practices.

## Projects

**Movie Nest (Orchid Category)**                                                             Live —— GitHub

- Job listing platform connecting employers and job seekers.
- Stack: React.js, Node.js, RESTful APIs

**Service Sharing App**                                                                      Live —— GitHub

- Service management platform with JWT authentication and pagination.
- Stack: React.js, Express.js, MongoDB

**SlothUI**                                                                                  Live —— GitHub

- Open-source UI component library offering reusable React components for faster development.
- Built with TypeScript and Tailwind CSS, documented via Storybook for easy adoption.
- Stack: React.js, TypeScript, Tailwind CSS, Storybook

**Gadget Heaven**                                                                            Live —— GitHub

- E-commerce platform for the latest gadgets.
- Stack: React.js, Node.js, RESTful APIs

**GreenPath Explore**                                                                        Live —— GitHub

- Gadget-based e-commerce application.
- Stack: React.js, Tailwind CSS, Node.js

## Education

**Green University of Bangladesh**                                                           Feb 2025 – Present

B.Sc in Computer Science and Engineering  Relevant Coursework: Object-Oriented Programming, Databases, Data Structures, Operating Systems, Networking

**Shyampur Govt. Model School and College**                                                   2018 – 2020

HSC (GPA: 4.42 / 5.00)
