CAREER OBJECTIVE

Aspiring Junior Web Developer with hands-on experience building full-stack web applications using the MERN stack. Skilled in creating responsive and user-centric websites, I leverage my problem-solving abilities, coding expertise, and passion for technology to contribute to innovative projects. Seeking an opportunity to grow as a developer while enhancing my skills in software development and contributing to team success.

SKILLS

- **Languages:** JavaScript (ES6+), TypeScript
- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend & Database:** Node.js, Express.js, MongoDB
- **Authentication & Security:** Firebase Authentication, JSON Web Token (JWT)
- **Tools & Platforms:** Git, GitHub, Vercel, Render

PROJECTS

1. Medicine-Shop-Live-Link (e-commerce website feature)   **Server-Repository | Client-Repository**

Layout Design: Separate dashboards for Admin, Seller, and User. **Smart Cart & Checkout** – Add medicines, adjust quantities, and pay via Stripe. **Sales & Payment Tracking** – Admins and sellers can manage orders, payments, and reports. **Advanced Search & Filters** – Find medicines by name, category, or company, with sorting options. **Advertisement System** – Sellers can promote drugs on the homepage slider. **Invoice Generation** – Users receive downloadable PDF invoices after purchase. **Fully Responsive** – Optimized for mobile, tablet, and desktop views. **JWT Authentication –** Secure API access with JWT token-based authentication for private routes.

2. Quora-BD-Live-Link (Recommendation Website feature)   **Server-Repository | Client-Repository**

User Authentication – Secure login and signup with email/password, as well as social login options (Google, GitHub, Facebook). **Query Management –** Users can add, update, and delete product-related queries. **Product Recommendations –** Users can add, view, and manage product recommendations. **Responsive Design –** Optimized the website for optimal viewing on mobile devices, tablets, and desktops. **JWT Authentication –** Secure API access with JWT token-based authentication for private routes. **Search Functionality –** Search queries based on product names. **Dynamic Layout Toggle –** Switch between various grid layouts for different queries.

EDUCATION

1. B.Sc. in Computer Science & Engineering (CSE)
   Rabindra Maitree University, Kushtia

2. Diploma in Engineering (Computer Technology)   **Certificate**   (Aug 2019 - Aug 2023)
   Kushtia Polytechnic Institute, Kushtia **| CGPA: 3.77**

PROFESSIONAL COURSE

1. Complete Web Development   **Certificate**   (June 2024 - Jan 2025)
   Programming Hero

2. Web Design & Development   **Certificate**   (Aug 2023 - Nov 2023)
   Skill Development Institution

3. English Proficiency Test   **Certificate**   (April 2025 - April 2027)
   Duolingo English Test
