SKILLS

Languages: JavaScript, SQL

Web Technologies: HTML, CSS, Tailwind CSS, React, NextJS, Tanstack Query, REST API

Tools: Git, GitHub, Figma

PROJECTS

AI Trip Planner   Source | Live

JavaScript, React, Tailwind CSS, Firebase, Gemini API

- An AI-powered platform delivering personalized travel itineraries and hotel recommendations, leveraging Google Gemini AI.
- Integrated secure user authentication and saved user-generated trips for easy access.

Expense Tracker   Source | Live

JavaScript, React, Tanstack Query, Firebase, Tailwind CSS

- Developed a web application enabling users to track expenses and income, view balances, and perform CRUD operations.
- Implemented sorting, filtering, pagination, and authentication for enhanced functionality.

PROBLEM SOLVING

Solved more than **200 problems** in different coding platforms **Codewars, LeetCode**

EDUCATION

Noakhali Science & Technology University   Year: 2018 - 2024
B.Sc in Information & Communication Engineering   CGPA: 3.50 out of 4.00

Govt. City College Chittagong   Year: 2016 - 2018
Higher Secondary Certificate   GPA 4.92 out of 5.00

CERTIFICATION

GitHub Foundation   **Credly**   Jun 2024
Issued by GitHub

INDUSTRIAL TRAINING

BJIT Academy   Dec 2023

- Completed a one-week industrial training program focusing on Agile methodologies and the Software Development Lifecycle (SDLC).
- Developed an expense manager web application using React and Java Spring Boot.
