ABOUT ME

Creative and detail-oriented Frontend Developer with 5+ years of experience crafting responsive, user-focused web interfaces. Proficient in HTML, CSS, JavaScript, and modern frontend frameworks, with a strong eye for design and UX/UI principles. Adept at turning complex requirements into clean, performant code. Passionate about building scalable web applications that deliver seamless user experiences across all devices.

EXPERIENCE

Frontend Web Developer
DataXpie Private Ltd. – UK Based Company | 03/2024 – 05/2025
- Developed responsive and interactive web applications using React.js.
- Collaborated with UI/UX designers to implement pixel-perfect designs and enhance user experience.
- Optimized frontend performance by reducing load time through code splitting, lazy loading, and efficient state management.
- Integrated RESTful APIs/GraphQL with frontend components to ensure seamless data flow and dynamic content rendering.
- Implemented reusable and modular components, improving code maintainability and reducing development time.
- Worked closely with backend developers to ensure smooth API integrations and troubleshoot cross-functional issues.
- Conducted unit and integration testing using Jest/Cypress/React Testing Library to ensure high code reliability.
- Participated in Agile/Scrum ceremonies, including sprint planning, daily standups, and retrospectives.
